

**2021 Beaver County Hazard Mitigation Plan - Municipal Project Opportunities**

Municipality	Community Rank	Project Name	Mitigation Measures		Hazard Mitigated	Total Cost
			Description of Problem to be Solved	Project Description		
Big Beaver	N/A	Guide Rails - Park Lane	Park lane does not have Guide Rails, which can be a hazard if there is an accident, or someone veers off the road.	Install 1,100 feet of Guide Rails on Park Lane	Transportation accident	\$50,000.00
Borough of Monaca	N/A	Emergency Generator Replacement	Replace an old generator.	Replace an old generator that provides emergency electrical supply to the Wastewater Treatment Plant in the event of a power failure	Flooding, Utility interruption, and Environmental hazards	\$93,691.15
Brighton Township	N/A	Gypsy Glen Road Flood Homes	Purchase and remove homes.	Homes flood frequently.	Flooding	\$500,000.00
Brighton Township	N/A	Mudlick Run	Purchase and remove homes.	Homes flood frequently.	Flooding	\$500,000.00
Chippewa	N/A	Woodland Road Storm Pipe Project	We have Two 24" galvanized pipes under the road that have deteriorated on the bottom side. Both pipes continually get clogged from debris and pose a potential flooding hazard to the home that is situated right along the stream bank. If the pipes are not replaced and a better headwall constructed, Woodland Road has the potential to collapse in that area.	Receive all permits from DEP and remove two existing pipes and replace one larger plastic pipe with a smooth lining. Have two new concrete headwall installed, one on the intake side, and one on the outfall side of the pipe.	Flooding	\$60,000.00
City of Aliquippa	1	Safety Sign Replacement	Replacement of signage for road closures. Sign are old.	To protect our residents on the roadways.	Transportation accident	\$484.00
City of Aliquippa	2	Paving Tyler Street	Pot holes need to be repaved.	Mill down road and repave.	Transportation accident	\$20,000.00
City of Aliquippa	3	Main Street Paving	Pot holes need to be repaved.	To mill down roadway and repave.	Transportation accident	\$20,000.00
City of Aliquippa	4	20 <sup>th</sup> Street Paving	Pot holes need to be repaved.	Roadways need to be milled down and repaved.	Transportation accident	\$20,000.00
City of Aliquippa	5	Generator City Building	Power loss.	To regain power instantly with outages.	Flooding, Utility interruption, Tornado/windstorm, and Winter storm	\$5,147.00
City of Aliquippa	6	Generator Fire Dept.	Loss of power door & computers do not work.	Restoring power when there is a power outage.	Utility interruption, Tornado/windstor, Winter storm, and Emergency services	\$10,000.00
City of Aliquippa	7	Generator Police Station	Loss of power to keep the police department's computers and phones online.	Restoring power when there is a power outage.	Utility interruption, Tornado/windstorm, and Winter storm, and Emergency services	\$5,147.00
Conway Borough	N/A	Generator Installation	Install generators to provide electricity and heat.	Install three generators, sites to be used in case of emergency or warming sites. Also, Police Department has to be able to be operatable in case of emergency.	Flooding, Utility interruption, Tornado/windstorm, and Winter storms	\$35,000.00
Conway Borough	N/A	Sewage Plant Updates	Infrastructure needs to be updated, repaired, or replaced. Extremely costly every time something needs to be replaced. Building site is located within Conway Yards, always a concern if there is a major hazardous event within the railroad.	Update infrastructure	Flooding, Utility interruption, and Environmental hazards	Parts = \$5,000.00 Rebuild = \$5 million
Conway Borough	N/A	Surveillance Camera's on Route 65 and major roadways in borough	Camera systems that connect to police and state camera's. Major intersections - Route 65 - entrance to Conway Rail yards, and Crows Run Road; and potentially going out of Conway to Economy. With crime rate increasing, and threats of terroristic across the Nation. Conway Yards is one of the biggest railroad sites. Nice to monitor entrance to railyard and be able to track vehicles instantly when needed in town and county.	Camera system connected to state and county.	Civil disturbance/ Criminal activity, Terrorism, and Transportation accidents	\$20,000.00
Darlington	N/A	Emergency Generator	Darlington Twp. and borough need a building suited to be an evacuation point in case of emergency. The township municipal building would be the best location. The building lacks a generator for emergency electricity.	Emergency generator to be installed with all equipment for auto recovery of power. Cost to be determined by a qualified electrician.	Flooding, Utility interruption, Tornado/windstorm, and Winter storms	N/A
Daugherty Township	1	Purchase of radio equipment for public safety	The project would consist of funding for the Daugherty Township Fire Department to purchase portable and mobile radios that are P25 compatible. A total of twenty-five portables radios and six mobile radios will need to be purchases to ensure proper communication with both county dispatch and any surrounding agency through mutual/automatic aid during incidents.	By 2021 Beaver County Emergency Services Dispatch will be utilizing a P25 digital radio system for communication with public safety entities. This project will assist the public safety entities in being able to communicate properly with surrounding agencies and with county dispatch.	Emergency Services	\$150,000.00

Municipality	Community Rank	Project Name	Mitigation Measures		Hazard Mitigated	Total Cost
			Description of Problem to be Solved	Project Description		
Daugherty Township	2	Purchase of generator for EOC	The project would consist of funding for Daugherty Township to purchase and install a generator that could support all of the municipal building's functions, such as heating, cooling, and electrical power for lights and outlets. This would ensure that the Emergency Operations Center at the municipal building could be utilized even when power failure occurs.	The Daugherty Township Municipal Building is currently utilized by the New Brighton Area Emergency Management Agency as the designated Emergency Operations Center (EOC). The building is not currently equipped with any type of back-up generator in case of power failure. Funding would be utilized to purchase a generator for the building to ensure the EOC is operational even with power failures in the area.	Utility interruptions	\$50,000.00
Fallston Borough	1	Beaver Street Slope Stabilization	Repeated landslides from unstable soils along CSX rail lines.	Provide slope stabilization techniques to prevent continued movement of soil onto Beaver Street.	Transportation accidents and Landslides.	\$200,000.00
Franklin Township	N/A	Franklin Township Emergency Generators Grant	Installation of generators at both critical facilities located in our EOP, the township building, which houses the police, road, and second fire station as well as the main fire department. We also need generators added to both our main signaled intersections in case of evacuation or loss of power.	Back up power is needed at both our critical facilities located in our EOP as well as the two main signaled intersections.	Utility interruptions and Nuclear incidents	\$30,000.00
Hanover Township	1	Generator for township office and garage.	The generator we currently have does not work. In the case of a power outage, the office could not function, and the trucks would be stuck in the garage.	Replace existing generator & switch.	Utility interruption, Tornado/windstorm, and Winter storms	\$27,059.46
Homewood Borough	N/A	Generator	N/A	N/A	Utility interruption	\$10,000.00
Hopewell Township	N/A	Trappmill Run Streambank Stabilization Improvements	Flooding along Kane Road, resulting in property damage and transportation disruptions along State Route 3009 contributing to further ongoing flooding to Raccoon Creek and downstream destruction.(PA DOT involvement for Roadway support structure at Kane Road).	Streambank stabilization of Trappmill Run along Kane Road. This portion of Trappmill Run carries major volumes of stormwater from Township Subdivisions and has become more vulnerable from ongoing development. Implement control including confinement matrices, stilling basins, gabion baskets, and turf reinforcement mats to contain and protect damage from heavy collection events. Stabilize channel bottom & greater volume capacity at incising and knick points to protect bank destruction. Start and stop bank protection at stable points along the Trappmill channel. Clear sediment load from existing problem areas. Project to include improvements for discovery of problematic areas.	Transportation accidents and flooding,	\$750,000.00
Industry Borough	N/A	Culvert Project on Willowbrook West	Replace bad pipe under road.	Extract and replace old pipe.	Utility interruption	\$110,000.00
Monaca Borough	N/A	Emergency Generator Replacement	Replace an old generator.	Replace an old generator that provides emergency electrical supply to the Wastewater Treatment Plant in the event of a power failure	Flooding, Utility interruption, and Environmental hazards	\$93,691.15
Monaca Borough	N/A	Emergency Generator Replacement	Replace an old generator.	Replace an old generator that provides emergency electrical supply to the Pump House Station in the event of a power outage.	Flooding and Utility interruptions.	\$44,531.54
New Brighton Borough	1	Communication Equipment Upgrade	Upgrade existing mobile, portable, and base station radios in the fire department, police department, and public works department to be P-25 compliant.	Existing radios are not compliant with the county's P-25 digital radio system upgrade, which is expected to be complete by early 2024.	Emergency Services	\$250,000.00+
New Brighton Borough	2	SALDO	Draft and adopt a current subdivision and land development ordinance to encourage efficient growth and promote health and safety through encouraging mitigation measure for private land development.	New Brighton Borough's current land development ordinance was adopted in 1962 and no longer reflects the objectives of the municipality	Flooding, Urban fire and explosion	\$5,000.00+/-
New Brighton Borough	3	Demolitions	Demolish condemned homes on the New Brighton Borough condemnation list and/or acquire blighted properties from the Beaver County Repository of Unsold Properties or demolition and future transfer to a neighboring property owner for appropriate reuse.	Blighted structures lesson neighboring property values and increase risk of urban fire.	Urban fire and explosion	\$50,000.00+/-

**BRIEF DESCRIPTION OF PROBLEM TO BE SOLVED:**

Increased flows into an aged infrastructure system damages public roads and storm sewer pipes; floods homes and yards; disposes sediment and debris on properties and roads; damages bridges; and clogs stream channels, culverts, and pipes with sediment contributing to flooding problems.

**DESCRIPTION OF PROJECT:**

Repair, replace, and/or expand the storm sewer system in New Brighton Borough in accordance with the Pollutant Reduction Plan approved by the PA DEP for an MS4 municipality with a sediment impaired stream. The project includes non-structural best management practices such increasing the street sweeping program, reducing impervious coverage of streets and parking areas, redirecting of roof runoff to vegetated areas, and redirect road and driveway runoff into grassed swales.

Is the property within the 100 yr flood plain? No

**BRIEF DESCRIPTION OF PROBLEM TO BE SOLVED:**

Due to frequent power outages in Ohioville, there is a need for a warming station during the winter or cooling station during extreme heat. Having a large gathering location where those in need can safely gather is in discussion with Council members and the community.

**DESCRIPTION OF PROJECT:**

The project is in the very beginning discussion and planning stages. This warming/cooling station would be located within a Borough Social Hall building that would need to be a large gathering place. It would be multi-functional, but one of the uses has been discussed as a community shelter in situations of hazard and safety.
