March 13, 2020

FOR IMMEDIATE RELEASE:

Due to the concerns associated with the coronavirus (COVID-19), and the increasing likelihood of the effects of the virus being felt in the area, the Board of Commissioners in conjunction with the President Judge are taking proactive steps to limit the risk of infection.

Effective immediately and until further notice, the Beaver County Ice Arena is closed. This includes use of the tennis courts and indoor walking track. The County is committed to the safety of its residents and it is with that frame of mind this decision has been made. Any questions regarding these facilities can be directed to the County's Recreation Department. In addition, all after-hours events and meetings scheduled to be held in the Courthouse for the remainder of the month are postponed at this time.

At the current time, the Courthouse remains open for business. However, the County is encouraging residents to limit their visitations to the Courthouse. The County offers a number of services either online, via telephone, or through the mail. County Officials are requesting the public utilize these remote methods of transacting business as frequently as possible for the foreseeable future. The County is taking extra effort to sanitize public access areas, including doors, elevators, stair rails, and other frequently-touched surfaces.

These instructions will be updated as additional information becomes available.
