BEAVER COUNTY 2026 HAZARD MITIGATION PLAN PUBLIC OPEN HOUSE

LOCATION

Community College of Beaver County
Learning Resource Center, Room 9115
1 Campus Drive, Monaca, PA 15061

We need your input!

We are inviting residents and stakeholders to provide critical feedback that will help shape the future of hazard mitigation in your community and throughout the County. This public open house will be focused around sharing information on the HMP and gathering input on the risks and hazards that impact you and your community.

Your voice matters!

The HMP update also includes a public survey that helps provide more information from residents and stakeholders about hazards throughout the County.

Scan the QR code or visit the link below to see the survey!

Beaver County is currently in the process of updating its **Hazard Mitigation Plan (HMP)**, which was last updated in 2021. This planning effort is vital to ensure that the County and its municipalities have continued eligibility for federal grants that help protect our communities.

The HMP identifies potential risks and priority mitigation measures, helps reduce the need for emergency response, supports better decision-making, and promotes cooperation between the County, municipalities, and stakeholders. This also helps maintain compliance with FEMA standards so that mitigation and disaster funding can be made available.
