

This report contains summary statistics on population and housing subjects from the 2020 Census Redistricting Data (Public Law 94-171) Summary File for Pennsylvania, which was released on August 12, 2021. This report presents data by municipality for a selected county. The 2020 Census Redistricting (Public Law 94-171) Summary Data also has data by blocks, block groups, and other geographic areas, which are not presented in this report.

The following municipalities are located in more than one county and the data pertain to that portion in the respective county:

1. McDonald Borough is located in Allegheny County and Washington County.
2. Trafford Borough is located in Allegheny County and Westmoreland County.
3. Ellwood City Borough is located in both Beaver County and Lawrence County.
4. Seven Springs Borough is located in Fayette County and Somerset County, which is not on this report.

So that the data can be more easily interpreted by the user, SPC has added the following:

1. The Summary Data provides data for the total population and the population aged 18 and over (i.e., the voting population). This report provides a third population group, namely, the population under 18, which was calculated by subtracting the population aged 18 and over from the total population.
2. The minority population, which is calculated by subtracting the White alone not Hispanic or Latino population (not presented in this report) from the Total population.
3. The percentage minority population, which is the percentage of the total population that is considered as the minority population.
4. The vacancy rate, which is the percentage of total housing units that are vacant.
5. The population density, which is the number of persons per square mile of land.
6. The household density, which is the number of occupied housing units per square mile of land.
7. Average household size = (total population - group quarter population) / occupied housing units.

Group quarter population refers to the population in group quarters where people live or stay, in a group living arrangement that are owned or managed by an entity or organization providing housing and/or services for the residents. These services may include custodial or medical care as well as other types of assistance, and residency is commonly restricted to those receiving these services. This is not a typical household-type living arrangement. People living in group quarters are usually not related to each other. Group quarter facilities are categorized as institutionalized and noninstitutionalized.
